Notes:

- 1: These were fitted to the rear of later cars, but many customers prefer to fit them at all attaching points. Use as you see fit.
- 2: We liberally coat this and the chrome with WD40, install chrome and clamp. Trim flush the next day. The WD40 acts as a solvent to soften the rubber and ensure a tight seal. The rubber is supposed to stay soft.
- 3: A coupe A-Post seal is supplied. Cut for roadster.
- 4: A coupe windshield is supplied. Cut for roadster.
